

Standard ESS2-2	Construct an explanation based on evidence for how geoscience processes have changed Earth's surface at varying time and spatial scales.	
Checkpoint	<ul style="list-style-type: none"> - I can construct an explanation with evidence that the Earth's surface is changing over billions of years. - I can construct an explanation with evidence that factors shape Earth's history and affect the future. - I can compose a list of evidence that proves this occurs. - ESS2-2 scientific vocabulary: <ul style="list-style-type: none"> - Change Earth's Surface - (Large): Plate Motion uplifting mountains ranges. - Change Earth's Surface - (Small): Landslides, erosion, types of weathering, water. - Change Earth's Surface - (Geoscience process): earthquakes, volcanoes, and meteor impacts. 	
4	I understand the <u>advanced</u> content.	<ul style="list-style-type: none"> - I can construct an explanation with evidence that the Earth's surface has changed over billions of years. - I can construct an explanation with evidence that factors shape Earth's history and affect the future. - I can compose a list of evidence that proves this occurs. - I can show 2 or more resources and my explanation has no errors.
3	I understand the <u>target</u> content of the standard.	<ul style="list-style-type: none"> - I can construct an explanation with evidence that the Earth's surface is changing over billions of years. - I can construct an explanation with evidence that factors shape Earth's history and affect the future. - I can compose a list of evidence that proves this occurs. - I can show 1 resource and my explanation has minimal errors.
2	I understand the <u>basic</u> content of the standard.	<ul style="list-style-type: none"> - I can understand the basics of this standard: <ul style="list-style-type: none"> - I can construct a basic explanation with no evidence. - I can construct a basic explanation that focuses on one point in time. - I can construct a basic explanation that vaguely connects the geoscience process to the changing of the Earth's surface.
1	<u>With help</u> , I understand the <u>basic</u> content of the standard.	<ul style="list-style-type: none"> - With help I can understand the basics of the standard
